<ul style="list-style-type: none"> Must be completed at discharge from the Non-Surgical Fracture EOC. Do not bill for payment of this form. The submission of this form generates an invoice automatically and invoicing is not required. Enter FXEOCLOR for the lower body report or FXEOCUOR for the upper body report 	FXEOCLOR or FXEOCUOR	N/A	\$40.00

Episode of Care requirements

- Initial Assessment Report and Summary Report – complete and submit to WSIB within 2 working days from the date of initial and final assessments respectively.
- Minimum number of visits (6) must be delivered.
- The Non-Surgical Fracture EOC is for allowed claims only.

Billing instructions

- Bill electronically, through the WSIB’s payment processor, TELUS Health Solutions, at completion of the EOC or whenever the worker is discharged from the EOC.
- To successfully enter the EOC bill, enter the service code on one line with the number of visits (at least 6 units) and corresponding fee.
- For electronic billing of the assessment and treatment bundle, the date of service is the date of the first visit.
- For all Non-Surgical Fracture EOC service codes, the ‘U’ refers to an upper body fracture and the ‘L’ refers to a lower body fracture treated within the EOC.
- If HST is applicable, record it on the same bill but on a separate line using the service code “ONHST.”
- Payment for the Summary Report will be processed upon receipt of the report. Submit reports manually by fax or mail as noted below.
- Do not bill electronically for payment of forms.
- If the Summary Report is not received within 14 days of discharge or if all sections are not completed, the form fee will not be paid. In addition, the Non-Surgical Fracture EOC payment will be held until receipt of this form.
- For further information on electronic billing, please contact the TELUS Health Solutions Support Centre at 1-866-240-7492 or visit www.telushealth.com/wsib.

Please submit completed forms by fax to: (416) 344-4684 or 1-888-313-7373

or by mail to: 200 Front Street West, Toronto, ON M5V 3J1
