Construction Exposure Incident Reporting Form (CEIR)

The attached **Worker's Exposure Incident Reporting Form** (form 3885A) is intended for voluntary use when an unexpected workplace incident exposure has resulted from a leak, spill, rupture, unanticipated emission, explosion or a release of a dangerous chemical or physical substance or contact with an infectious substance or biological agent.

The purpose of this form is to obtain information about the exposure incident experienced by the worker should an illness or disease occur in the future.

This form should be completed by the worker who has experienced an unexpected exposure.

Employers complete an Employer's Exposure Incident Reporting Form (CEIR) (Form 3886A).

The **Worker's Exposure Incident Reporting Form** should only be completed if there has been an unexpected workplace exposure event where there has been:

- no lost time
- no illness

If you have experienced any illness needing medical treatment *(such as diagnostic tests, prescribed medication or ongoing treatment)* as a result of the incident, the employer should file an occupational disease claim using a Form 7. The worker should file an occupational disease claim using a Form 6.

Forms should be completed and given to your supervisor/Health and Safety Representative to forward to the WSIB. Completed forms can also be forwarded directly to the WSIB:
